Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	F1 Race Intelligence Dashboard
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Why F1 teams need data-driven race analysis and the questions the dashboard answers.	2	[Your Name]
2	Dataset & Data Preparation	Race results dataset: 10 teams, 17 seasons, 6,464 race outcomes, 24 circuits; cleaning and field preparation.	2	[Your Name]
3	Solution Overview	Dashboard design in Tableau, chart choices and how the KPI header and views fit together.	2	[Your Name]
4	Live Demo: Team & Driver Performance	KPI cards, Team Championship Performance Analysis, Driver Leaderboard, Qualifying vs. Race Finish Correlation.	4	[Your Name]
5	Live Demo: Race Operations Insights	Pit Stop Efficiency, DNF Reason Breakdown, Tyre Compound Usage, Global Driver Distribution, Overtakes by Circuit Type.	4	[Your Name]
6	Limitations, Future Scope & Q&A;	Scalability plan, roadmap and answering questions.	3	[Your Name]

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	State the problem: raw race data is hard to read without visuals. Introduce myself and the project.
2	Solution Overview	Explain dataset, Tableau workflow and dashboard layout before opening it.
3	Live Feature Demonstration	Walk through the dashboard top to bottom, starting with the KPI cards; use filters while explaining insights.
4	Q&A; Session	I answer all questions; keep sample queries ready (e.g. top team by points, main DNF cause).
