Demonstration of Proposed Features

Date	15 March 2026
Team ID	XXXXXX
Project Name	F1 Race Intelligence Dashboard
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S. No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	KPI Summary Cards	Headline cards showing 10 competing teams, 17 seasons in play, 6,464 race outcomes logged and 24 circuits showcased.	Implemented	Yes	Gives instant scope of the dataset.
2	Team Championship Performance Analysis	Line chart of total points per season for Ferrari, McLaren, Mercedes and Red Bull Racing.	Implemented	Yes	Filtered to the four leading teams.
3	Driver Performance Leaderboard	Bar chart of total points per driver (Hamilton, Verstappen, Norris, Leclerc, Russell, Piastri, etc.).	Implemented	Yes	Shows 10 of 19 drivers.
4	Qualifying vs. Race Finish Correlation	Scatter plot of grid position against finish position, coloured by team with driver-level detail.	Implemented	Yes	Shows how far starting position predicts the result.
5	Pit Stop Efficiency Trends	Season-wise line chart of average pit stop time for all 10 teams (2010 to 2022 view).	Implemented	Yes	Compares teams over time.
6	DNF Reason Breakdown	Bar chart counting retirements by cause: brake failure, collision, engine, gearbox, hydraulics, mechanical.	Implemented	Yes	Engine failures are the most frequent cause.
7	Tyre Compound Usage Distribution	Pie chart of starting tyre compound share: Soft 29.22%, Medium 29.15%, Hard 28.60%, Intermediate 13.03%.	Implemented	Yes	Percent-of-total labels.
8	Global Driver Distribution	Map showing distinct driver count by country (Australia, UK, USA, Japan, Brazil, etc.).	Implemented	Yes	Built on Mapbox / OpenStreetMap.
9	Overtakes by Circuit Type	Bubble view for Permanent, Street and Street/Park circuits: size = DRS overtakes, colour = safety car laps.	Implemented	Yes	Compares overtaking across circuit types.
10	Integrated Dashboard	All views combined in one "F1 Race Intelligence Dashboard" with the KPI header on top.	Implemented	Yes	Single page used for the live demo.

Feature Implementation Summary:

Total Features Proposed	10
Total Features Implemented	10
Total Features Demonstrated	10
Overall Implementation Rate (%)	100%
