Communication

Date	15 March 2026
Team ID	XXXXXX
Project Name	F1 Race Intelligence Dashboard
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used by the individual developer and with the mentor and stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Personal task log / notes app	Self	Plan the day's work and note blockers (individual project, no team).
2	Progress Update	Weekly	Google Meet / WhatsApp	Self and mentor	Share dashboard progress and get guidance.
3	Issue / Bug Discussion	As Needed	Email / WhatsApp with mentor, online forums	Self, mentor	Resolve data and Tableau issues.
4	Stakeholder Review	Bi-Weekly	Google Meet / MS Teams	Self, mentor, reviewers	Collect feedback on the dashboard and demo.
5	Final Demo Rehearsal	Once	Screen recording / Google Meet	Self (optionally mentor)	Practise demo flow, timing and Q&A.;
6	Workbook Backup & Versioning	After each major change	Google Drive / local backup	Self	Keep the latest Tableau workbook and data safe.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Data anomalies (season range up to 2040, negative points, unusual pit stop times).	Checked the fields myself, applied filters in Tableau and noted full data cleaning for Phase 2.
2	Handling data preparation, design and documentation alone within the deadline.	Broke work into daily tasks with a weekly plan and prioritised the core charts first.
3	No peer review to catch mistakes.	Asked the mentor for feedback in progress updates and re-checked every chart against the data.
